

Earn Passive Cash from an App (do nothing, make \$5/month)

Brandbee has been my favorite passive earning app even before it rebranded from Mobile Performance Meter. After you install, you start earning 10 free points per day, with optional surveys, refs, etc. You can cash out in gift cards (Amazon, eBay, Target, etc.) after you reach the \$3.00 minimum (you get 300pts after 30 days).
